

1) Swarovski Crystal Worlds

We meet at 12:45pm in front of the entrance "B" of the congress building (the entrance facing the Hofgarden). Find the bus with the sign "Crystal Worlds" behind the windshield. Departure is at 1:00pm. A bus takes us through a number of typical Tyrolean villages to Wattens, where the Swarovski Crystal Worlds opened their doors to the public in October 1995. Through the huge water-spouting head of a botanic giant, we enter the mostly subterranean, unique magic World of Crystal (idea and artistic supervision by André Heller, the famous Austrian performance artist). We receive a short introduction in the crystal hall, from where we start exploring individually what is hard to describe: a view of the surreal landscape of a glittering galaxy, the inside of a gigantic crystal dome with changing patterns of light and sound, bizarre scenarios - a world of magic.

Please bring your Ticket which will be collected before departure!
